CLEARSHOT EXTRACTION
TECHNOLOGY
OIL & GREASE MEASUREMENT

For the Offshore Oil and Gas Industry, Cost-Effectively Measure Oil and Grease in Water Efficiently, Safely and Accurately with Innovative OSS ClearShot™ Technology.

Ideally Suited for All Phases of Operation - Drilling, Production and Decommissioning

- Reduces Cost through Chemical Savings, Risk Mitigation and Decreased Time
- Eliminates Use of All Dangerous Solvents, such as N-Hexane
- Fast, Precise & Reliable Testing
- Perform Oil Concentration Testing on the Rig - Saving Time, Cost and Risk
- Safe & Simple Procedure that Eliminates Hazardous Waste
- Provides Ability to Identify Oil Within Samples
